# PROTECT OUR CARE:
NO CUTS!!

It's bad enough that the Trump Administration is attacking New York with relentless cuts to our healthcare system.

Now Albany is proposing a **DISASTROUS $1 billion in cuts** in the state budget to New York's healthcare providers!

✓ **Struggling safety net hospitals may close.** Twenty-six of them are already on a funding crisis 'watch list'.

✓ **These hospitals will have to cut community services.** They are the biggest providers of care to Medicaid recipients and other vulnerable populations.

✓ **Nursing homes badly need funding** to provide quality care.

✓ **Homecare workers** – who care for seniors and the disabled – cannot afford any cuts.

✓ **Healthcare – the most important issue for New Yorkers – is the only item facing major cuts in the budget.**

Every New Yorker must send a powerful message to Albany: DO NOT CUT HEALTHCARE!

PROTECT OUR CARE:
NO CUTS!!

Safety Net Hospitals

26 New York hospitals face critical funding issues. In 2017, they provided nearly 200,000 discharges and 3.5 million ER and ambulatory visits.

Medicaid Rates

There had been no increase in 10 years. Hospitals and nursing homes need funding to provide quality care and to support record Medicaid enrollment.

Quality Homecare

Funding is needed for more homecare workers to deliver quality care.
