

The Inflation Reduction Act Is a Gamechanger

GOOD FOR OUR HEALTHCARE

GOOD FOR OUR CLIMATE

GOOD FOR OUR POCKETBOOK

The just passed Inflation Reduction Act (IRA) is a historic piece of legislation. It will dramatically make our healthcare better by making critical prescription drugs available and affordable, particularly for our seniors. It will provide individuals and families help to purchase health insurance coverage. Besides promoting better healthcare, it will promote cleaner air and protect our climate and environment. And It does this in way that is responsible and actually pays down our national debt. [Here how it helps you:](#)

Provisions of the Bill	How They Help
DRUG PRICING	
Medicare can now negotiate with drug companies to get lower prices	Saves money for Medicare Saves money for you!
Caps the cost of all prescription drugs at \$2,000 per year for Medicare Part D	Seniors do not spend more than \$2,000 a year on their medications
Caps the cost of insulin at \$35 per month	Limits the cost of insulin for seniors enrolled in Medicare a month
Prevents large increases in drug prices by drug companies	No sticker shock
ACA SUBSIDIES	
Continues the tax credits that subsidize the cost of health insurance for another three years; these credits were set to expire this year	Millions will get help on family budgets, allowing them to afford health insurance and stay covered
CLIMATE CHANGE	
Invest in clean transportation	Keep our air clean
Invest in clean energy and ensure energy independence	Stop gas price shocks Protect our environment Add green jobs to the economy

RESPONSIBLE LEGISLATION

The bill is paid for by finally getting corporations to pay their fair share of taxes.
And it even generates revenue to pay down the national debt!

✓ DEMOCRATS YES! **✗ REPUBLICANS NO!**
